RECRUITMENT

- The nominated supervisor and responsible persons are responsible for recruiting new staff.
- The service ensures the employment process is fair and transparent for all prospective employees, by:
 - advertising vacant positions through a variety of means, *e.g.*, *Seek, website, social media*
 - inviting potential employees to apply and attend an interview.
 - performing reference checks after an interview has been conducted.
 - being an equal opportunity employer.
- Referees are contacted for prospective employees. If a referee raises any concerns about a potential staff member, additional referees may be requested.
- If the nominated supervisor or responsible persons do not deem the prospective employee to be a fit and proper person, the employment process will no longer continue.
- Prospective employees are required to provide evidence of a current and valid, employee *Working with Children Check* or *VIT registration* prior to receiving an offer of employment.

- A *Working with Children Check (WWCC)* helps protect children from physical and sexual harm. It does this by screening people's criminal records and professional conduct and preventing those who pose an unjustifiable risk to children from working with or caring for them.
- All staff must have a current and valid employee *Working with Children Check*. Staff must provide their *Working with Children Check* card or documentation so a copy can be taken for record keeping.

comprehensive induction process. All staff are required to participate in the induction process.

- The benefit of the induction process for the new employee is that it assists staff to adapt more easily to their new working environment, encourages a positive approach to the new position & workplace, and facilitates more effective performance.
- When a new staff member first commences at the service, they work alongside another staff member to gain knowledge of practices, policies and procedures.
- Each new staff member is given an induction checklist that depicts the aims of the induction program and gives details on what to expect during employment. All inductees are also given their own copy of the staff handbook.
- New staff are presented with a range of information such as:
 - Position description
 - Staff handbook
 - Pay rates and awards
 - Grievance and disciplinary procedures
 - Employment agreement
 - Tax declaration form
 - Personal information form

- The induction checklist provides information on the areas of knowledge that all staff must become familiar with and a box to record the date that each section was completed.
- During the follow up meeting after the probationary period, staff are informed about rosters, meetings, professional development training, annual appraisals, and the assessment and rating process. All staff are given the opportunity to provide feedback on the induction process.

ROSTERING

- To promote continuity, staff are rostered on similar shifts and in similar rooms across the week. This provides a secure and welcoming start to the day for children as well as providing staff at the end of the day that have cared for & educated those children to give information about their day.
- If a staff member is absent, staff from within the pool of casual staff are engaged for familiarity and consistency for children and families.
- The time approved for staff leave is arranged to prevent as few disruptions to children, families and staff. Staff members may be moved from one room to another to assist with continuity.
- Staff must confirm with the nominated supervisor or responsible persons before swapping shifts.
- Shifts are based on minimum hours so staff may be stood down without pay at any time should numbers be lower than expectation and there is not requirement for additional staff members to cover ratios.

BREAKS

- A staff member will not be required to work in excess of six hours without an unpaid meal break of not less than 30 minutes and not more than one hour.
- A staff member working four hours or more on any engagement will be entitled to a paid rest period of 10 minutes.
- Staff are required to return to and from breaks on time, as break rosters are tightly timed and other staff may miss out on their break as a result of lateness.

WAGES

- Wages for childcare staff are paid in accordance with the *Children's Services Award*.
- Wages for early childhood teachers are paid in accordance with the *Educational Services (Teachers) Award*.
- Wages are paid on a fortnightly basis via electronic transfer to the account nominated on their employee details form. They are processed on the Friday at the end of the fortnight and will be deposited into accounts the following Wednesday.
- All staff receive a pay slip via email, which contains all relevant information, as well as current leave entitlements and superannuation contributions. Any enquiries regarding information on a payslip should be directed to the nominated supervisor or responsible persons.
- Staff are required to fill out their own timesheet every day. This is the official payroll record from which wages are computed. Unless a staff member has been authorised to do overtime, they record their normal beginning and end of shift times.
- Staff are only be paid for rostered hours unless otherwise approved. In addition, the taking of lunch breaks and any other absences must be recorded on the timesheets.

SUPERANNUATION

- The organisation's default superannuation company is *Hesta*. Superannuation is paid into a staff member's chosen superfund monthly.

ATTENDANCE

- All staff are required to attend work on time, go on their lunch breaks during the appropriate times, complete their tasks in a timely manner and to work until the scheduled end of day.
- Staff must advise the nominated supervisor or responsible persons prior to their start time if they will be late or will be absent from work.
- Staff who are absent from work must notify the nominated supervisor or responsible persons each morning of the day of their absence of the reasons for their absence and their expected date of return.
- Regular attendance contributes significantly towards strong teamwork and service operation. Good attendance is an essential component of solid employee performances. If a staff member is going to be absent for any reason, they are expected to give as much advance notice as possible. Continued absenteeism could have a detrimental effect on employment.

PUNCTUALITY

- Being on the job, ready to work, on time and in a fit state, is very important. Staff are expected to arrive at the service prior to their shift, to ensure there is ample time to organise themselves and be in their room ready to perform their assigned duties at the scheduled starting time.
- If staff are going to be absent or late unexpectedly, they must call the service before their assigned starting time. Without this notification, the absence or late start will be noted as 'unexcused' and could have a detrimental effect on employment.
- When a staff member is absent or late, they are missed and the service experiences disruption. If a staff member is unavoidably detained, they must call before their scheduled starting time with an anticipated time of arrival. Heavy traffic or sleeping in are not acceptable excuses.
- In the absence of the nominated supervisor, it is the responsibility of responsible persons to organise relief staff if a staff member calls in sick.

DRESS CODE

- All staff must adhere to the dress code. Maintaining a professional appearance and complying with dress standards is not only image related. Many of the required standards are for hygiene and safety reasons.
- The nominated supervisor and responsible persons are responsible for ensuring that the dress standards for staff are followed and maintained.
- Clothing must be:
 - neat and clean.
 - not too tight, short or ill-fitting.
 - modest, provide sun protection and allow safe manual handling.

- Staff are required to provide written notice via email to request annual leave. The email should state what the first day of leave will be and what will be the date of return. - SMS, email or Facebook contact is not acceptable.
- Staff need to make the nature of their condition clear and indicate if they require more than 1 day of personal leave. Staff are required to phone the service before 3pm on the day before they are due to return to work, to confirm their return or extend their personal leave.

COMPASSIONATE / BEREAVEMENT LEAVE

If no such certificate is provided or the health practitioner does not report that they are fit to carry out their full duties, they will be sent on parental leave immediately.
- In the event that a staff member does not provide a date for their return to work in writing at least 4 weeks prior to the date of birth of their child, their absence will default to the full 52-week period available to them under the *National Employment Standards*.

- As mandatory reporters, staff must report possible risk of harm to children or young persons to child protection.
- Misconduct may lead to disciplinary, and severe misconduct may lead to immediate dismissal or criminal proceedings.
- In the circumstance of a reportable allegation in regards to a staff member, the organisation will conduct an investigation and follow the Reportable Conduct Scheme procedures. The staff member will be stood down whilst waiting for the outcome of the investigation.
- Racism will not be tolerated within the organisation. Claims of racism will be investigated by the nominated supervisor or responsible persons and acted upon. This may include suspension of attendance or employment while claims are being investigated, action plans, performance management processes, and/or additional training.

CODE OF CONDUCT ADDITIONS DURING A PANDEMIC PERIOD

- To prevent the spread of a serious infection or reduce the potential for an illness to spread, all staff, families and volunteers must comply with guidance issued by government agencies, including directions on attendance, quarantine, self-isolation and social distancing, including:
 - compliance with isolation requirements.
 - staying home if unwell.
 - seeking medical attention if symptoms develop.
 - advising the service if unwell.
 - practicing social distancing.
 - complying with any isolation or exclusion periods.
 - minimising the risk of cross contamination.
 - refraining from making determinations of risk based on race or country of origin.
 - maintaining confidentiality regarding staff and families confirmed to be unwell.
 - compliance with immunisation requirements.
 - compliance with work permit requirements.
- During a pandemic period, non-essential visitors are not allowed into the service. In this circumstance, all student placements or volunteer arrangements would be suspended or cancelled until the pandemic is declared as over.

VOLUNTEERS

- The role that volunteers play varies & can include working with groups of children, preparing materials, assisting with administrative tasks or working one-on-one with individual children.
- The service is responsible for ensuring that volunteers are suitable to work with children, and that children's health, safety and wellbeing is protected at all times.
- Volunteers should only be engaged to complement, not replace, the work of paid staff. Accordingly, volunteers are not engaged to fill the place of a staff member who is ill or on leave, or to fill a vacant position.
- Volunteers must not be asked to perform tasks:
 - that they are untrained, unqualified or too inexperienced to undertake.

- that put the children or themselves in a vulnerable or potentially unsafe situation.
- where there is a conflict of interest.

PARTICIPATION OF STUDENTS AND VOLUNTEERS ON PRACTICUM PLACEMENTS

- From time to time, the service has students and volunteers attending that are currently studying in the field of early childhood education. They will be observing and learning about the care and education of children and the operation of the service.
- Students will be engaged at the service following correspondence from their university or TAFE organisation. They are given an orientation pack which details all the information they will need to know when attending the service.
- Student and volunteer placements are limited so how many places offered is at the discretion of the nominated supervisor or responsible persons.
- Students and volunteers are screened before participating in daily activities and must adhere to the service's philosophy, practices, policies and procedures whilst in attendance at the service.
- All students and volunteers require a current and valid working with children check or VIT registration before commencement and must fill out detailed documentation. They will also be required to complete online child protection training before their first day of attendance.
- The nominated supervisor or responsible persons must ensure that all students and volunteers fill out a student and volunteer record and provide adequate information regarding their placement.
- The student and volunteer record must include their full name, address, date of birth, and date and hours of participation at the service.
- The service utilises a placement diary to ensure that only one student or volunteer is allocated to each room at a time.
- Students and volunteers are required to sign in and out of the service daily.
- All students and volunteers will be directly supervised by senior staff. At no stage, will a student or volunteer be left in charge of a group of children. However, they will interact with the children, giving help and attention as needed.
- Students and volunteers are not permitted to serve food or drinks to the children unless being clearly supervised by a staff member who is regularly based in that room.
- As part of their studies in early childhood education, students need to be involved in observations and planning of experiences. Permission will be sought from parents or guardians prior to this and confidentiality of children's files will be maintained.
- All students and volunteers are given a copy of the orientation checklist. A senior staff member will conduct a walk-through of the service with the student or volunteer and tick off sections of the checklist once they have been shown. All new students and volunteers will be given their own copy of the student and volunteer handbook.
- Evaluation of students will be done in conjunction with the room leader and visiting teacher, as appropriate. Students and volunteers must ensure that the service is kept informed on their progress but must understand that staff are not responsible for completing their study requirements.

- It is very important that students interact with the children rather than standing back and observing them. Teachers will want to observe this occurring when visiting students to evaluate their practical placements.
- Due to a conflict of interest, children of students or volunteers cannot be enrolled at the service. If the child already attends the service, the service will not be able to provide placement for the student. This is to ensure the student is not getting distracted whilst at placement, and the child is not distressed.
- Students and volunteers do not make up part of the educator to child ratio and cannot be used to fill the place of a staff member.
- The nominated supervisor, responsible persons and/or visiting teacher can cancel any student or volunteer placements if policies, procedures and/or placement requirements are not being adhered to. The service reserves the right to terminate a placement for any reason.
- Termination of a student or volunteer's placement will occur if the student or volunteer:

 - Fails to notify the service that they will not be attending.
 - Is observed using repeated inappropriate behaviour at the service.
